---

## THANK YOU!

We here at the SoftWORKS FACTORY would like to thank you for your purchase of this information package. We believe that you will find the ADAM FAX PAK to be a fine addition to your ADAM resource library. Most everything that is included in this pamphlet has at one time or another been published in other forms, but never before has it all been compiled into one easy - to - read package. We sincerely hope that it will be a valuable addition to your ADAM library.

## TABLE of CONTENTS

ADAM User groups / newsletters .....	2
ADAM Bulletin Boards .....	5
ADAM Vendors .....	7

## SPECIAL MENTION

This package was put together with ShowOFF II and PowerPAINT, both programs from DIGITAL EXPRESS.

## PRODUCT COPYRIGHT

This booklet is copyrighted and may not be copied and distributed. Feel free to distribute the information contained within, but please do not use our format. The ADAM FAX PAK will be updated each year to reflect the current status of the ADAM community. If we have missed someone that should be included in the ADAM FAX PAK, please drop us a note and the information will be included in the next printing.

## ADAM PUBLICATIONS / USER GROUPS

We ADAM owners are an information hungry lot; many of us try to read anything we can get our hands on regarding our powerful, but orphaned computer.

Be sure to write to the editor of any of these publications that appeals to you... and let them know where you heard about them. If at all possible, we suggest that you subscribe to at least two or three ADAM newsletters. Each one is different in its own way, and will add greatly your enjoyment.

The following list is in alphabetical sequence. Included within each listing is the most current subscription / membership information that we have available at the time of printing.

## ADAM BULLETIN BOARDS

The push is on to take ADAM into the telecommunications age. We now have available to us the industry standard modems so coveted by the IBM crowd! Modem programs have gotten better and better. Many now include X-Modem file transfers and phone library plus many other useful, state of the art convenience features.

ADAM bulletin boards are becoming THE PLACE to keep in touch with the ADAM community. All of the latest breaking news is found here first. Problems can be tossed around among the members and soon enough a solution will come to light. There are hundreds of Public Domain programs that are available for the downloading ( the SYSOP would appreciate an upload or two in return for this ). Plus the greatest single resource available to ADAM owners can be found here... other ADAM owners. This is because ADAM owners are some of the most helpful people that you will ever have the good fortune to come in contact with. The vast majority will go out of their way to help out a fellow ADAM owner in need. So... fire up that modem, burn up the phone lines and show some support to these great people and their fine BBS's.

The following list is in alphabetical sequence. Each of these BBS's are run on the ADAM computer system for ADAM owners. Many thanks to Alan Neeley for the PCP city codes that we now have available. Included within each listing is most of the currently applicable information that we have available at the time of printing.

### ADAMCASTLE BBS

SYSOP: Shawn Merrick  
HOURS: 24 hours on weekends  
PARMS: 8-N-1  
BAUDS: 300/1200/2400

## ADAM VENDORS

ADAM support firms have been on the increase for some time now. The selection of hardware seems to grow with each passing day. Software support is at an all time high, and the world of ADAM is poised to leap into the 1990's within the GoDOS environment.

We have listed addresses and phone numbers (where available). So... please do write to them. Let them know that you appreciate their hard work and request a catalog or more information on their products. It is usually best to include an SASE when requesting a response. If the firm carries something that catches your attention, by all means do some mail order shopping.

The following list is in alphabetical sequence. Each of these 50 companies are committed to supporting the ADAM in one way or another. Remember that prices can vary widely, so it will pay you to shop around.
