USER'S GROUPS: The vast majority of users groups are composed of loosely knit enthusiasts, generally attracted by a common interest in a particular computer. The average user group is very small, composed of friends and neighbors. Their operation is one based on play, personal enjoyment, a hobby, and other labors and sources of income support them, allowing their participation. Their enthusiasm and interest hold them together, and we commend this activity. However these groups have a very high mortality rate, few survive for long. Without sufficient income incentive to properly operate the group, statistics show that they disappear by the hundreds, each year. Furthermore, all of the computer publications require regular upgraded information on the existence of group names and addresses, to include them in their listings. The second type of group is one partly sponsored by a particular computer manufacturer. These groups have a longer life than the first, for obvious reasons. The third type, such as ours, is extremely rare. We are the only group we know that is based on the corporation-cooperative plan, and is governed by a Board of Directors, with the majority of the Board engaged in FULL TIME work with the Group, in addition there are a number of others who spend a portion of their time, helping with the many tasks which confront a properly operated group. We are a profit oriented Group. This is an absolute necessity, for without a profit, we cannot exist, cannot produce the items the computer using public wants, cannot constantly upgrade what we have, cannot pay the salaries and expenses that are created by a business. Even as it stands at this moment, our own Group is more than \$203,000 in the red. That is fine! Why, because 8 months ago it was nearly \$100,000 higher! Prospects are great. I know of no other group which has pledged themselves to such an extent! It therefore angers me to receive a letter which says "I know other groups who are "really" trying to help ADAM." As though we weren't! I suggest that writers such as these put their money up, like we have, not just empty words. We challenge any other group, anywhere, to even attempt to duplicate our efforts.

Some computer groups will furnish a disk full of games, programs and utilities, for a fee as little as two 22 cent stamps! Any business oriented person or group would shudder at such an operation! We have received letters, not of commendation, but of condemnation from one or two similar groups, for "charging money" for disks. We also watch them fail. An ego-centered group can only go so far, then without profit, must fail. That is one of the laws of the marketplace, and is an immutable one. Many of these enthusiasts have no concept of the brutal facts of the business world. We have received our computer group education the hard way, and have learned to tailor our operation accordingly.

To those who disagree with our methods, after reading this, we shall, with regret, suggest that they follow their own dictates, and we shall do the same. If we do not survive, the survival of our members is also in grave doubt. In any event, our system succeeds, while we have seen hundreds of others fail.

## Questions & Answers on CP/M

Q. What does CP/M mean?

A. Control Program for Microcomputers.

Q. What is it. What does it do?

A. It is a program which teaches you and your computer the basics: how to take commands from the keyboard, how to display information on the monitor, and how to use disk drives, cassettes, printers, hard disk drives, and other peripherals.

Q. By what other name can it be called?

A. C/PM-DOS The DOS stands for DISK Operating System.

Q. What is it's main advantage?

A. It makes your computer compatible with other computers, allowing use of thousands of ready written programs on your computer.

Q. How difficult is it to use?

A. ALL CP/M computers operate alike, so once you have learned it on your system, you will also know it for others, although some systems use shortened or altered types, all can communicate with others.

Q. How many brands of computers use CP/M?

A. There are hundreds of brands of computers using CP/M.

Q. Are there a lot of CP/M programs available?

A. Yes, perhaps the largest number of programs in the world are in CP/M.

Q. Will my disk drive work in CP/M?

A. Yes, and it will hold twice as much data!

Q. What must my computer have, in order to run CP/M?

A. 20 K minimum RAM. If you use CP/M + or CP/M 80 You need at least 128K RAM, or you run out of workspace. CPM + occupies 63.5 K, by itself.

Q. How do I get the CP/M program into my computer?

A. By "booting" it from a tape or disk containing the program.

Q. What features are available in CP/M?

A. Practically every feature you will ever need, and some you are likely never to use.

Q. Does CP/M support color?

A. Yes, if your system provides color.

Q. Can I print graphics in CP/M?

A. Yes, if your printer supports graphics.

These are representative questions concerning CP/M.

//////// GROUP NEWS \\\\\\\

by A. Suzuki

All in all, things are going as well as could be expected, under the existing circumstances. Still short-handed, and on top of that, everyone here has one of the worst cases of "the flu" we have ever seen. Doesn't seem to be any medication that helps very much. Seems to get maybe a little better, then suddenly switch back to a situation where you would have to feel 150 % better, to get an undertaker to take your business! Oh well, such is life.

At the group meeting this month, we had to revoke the membership of one member, only the second time this has ever happened. As Buck says "We are here for you to use us, NOT TO ABUSE US." We had reached the end of our patience with this character, and we are not the only Group or dealer/supplier he has given trouble. If he causes any further problems to us, of any kind, he will be instantly taken to court. In every batch of apples, there has to be a bad one, and we just lucked out, and got him. Now others will have to put up with him, until someone has him put away.

If we are slow in getting some things done, please go along with us, we are going as fast as we can. When conditions are poor, time short, overworked, it is only natural that we have to concentrate on doing what is best for the majority, so that at least the majority will not be delayed, disappointed, etc.. Never fear, we will get all satisfied in time.

It is impossible to do anything, offer any means of doing anything, perform any task, without offending someone. LINCOLN WAS RIGHT! See the following:

---

This is a letter we sent in response to one received from a member.

-----, in answer to your first statement in your letter, "I get very strong feelings from your editorials ----- that you do not trust the public." (Relative to accepting personal checks)

We have gone over this many times, and you have been a member long enough to have read a number of articles we have had in the newsletter about this. When this group made the step into a large organization, and selling items we devised, and manufactured, we agreed that it would be a good idea to accept personal checks, for the convenience of our members.

What a disaster! Each month, we lost hundreds of dollars, never recovered. Among the things we ran into:

1. Checks-stopped payment, item returned. (We were out time, packing and shipping)
2. Checks-Stopped Payment, BEFORE ITEMS WERE EVEN DELIVERED! (same cost to us as above)
3. Checks-Stopped Payment, item accepted by person (s) ordering, NEVER returned to us.
4. Checks-Insufficient Funds, have to be re-run up to 3 times. Some bad even after this time.
6. Checks-Account Closed!!!
7. Checks-Account Does Not Exist!
8. Checks-Written by child, on parents account, wrong signature, payment refused by bank.

We stopped accepting them. Then received a lot of letters, accusing us of not trusting people, by not accepting their checks. We opened the door again, added credit cards, and in one month lost \$3,600.00! One of these months we made a large shipment by Parcel Post, COD, because it was requested that way. When we received no payment from the P.O., we investigated. The person ordering denied ever receiving it. Our investigation showed the postman had left it without it being signed for, or collecting the charges! Eventually, when the P.O. did not honor the insurance, we got a portion of the material back (small) and had to "eat" the rest of the loss. Trust the public? It is a pity that a small minority affect the majority.

We also found that, in general, those most insistent upon us accepting their checks were far more likely to fall into the above category. If we send the merchandise, in good faith, do we not have the right to expect to be paid? A personal check is no more than a promise to pay, and it is surprising to some, how many people break their promises, for whatever reason. We have never, never refused to replace defective merchandise, and the times we have been requested to do so number a total so small they can be counted on two hands, and have enough fingers left to "hunt & peck" on the keyboard. Cont'd next page.

Cont'd from previous page

It does no good to suggest prosecution, for if the amount is not sufficient to pay for a trip to the offender's locality, it is virtually impossible to recover, and we lose even more money. Many of the sharpies are well aware of this, and certainly make use of this weakness. Laws are different in the various states.

If you will place in escrow, a sufficient amount to cover our losses, we will be more than glad to accept checks. Are you willing to absorb the losses? No? Then please do not expect us to.

We have also been plagued by those who ordered software, returned it for exchange, then returned that for exchange, then returned that for exchange, as many AS NINE TIMES BY ONE INDIVIDUAL. They also order a large amount of software, and in a very short time, return it for exchange on hardware. Very obvious what they have done. We also have had those who order large amounts of software, and then want to return it "Because it was not what I thought it was" although the items were described in the utmost detail. We have even found some who would order various boards, HAND COPY THEM, and return the original for refund! One even boxed his hand wired copy by mistake, instead of our PC board, and returned it, requesting a refund! TRUST THE PUBLIC!

You mentioned a disk. We investigated, and found that the disk is indeed a utility, which bears no name of the owner, no protection of any kind, no notice of copyright, no dates. It was received in a batch of Public Domain disks. I repeat, there are no protection identifications of any kind. If you believe that we purloined this disk, please furnish us with evidence of ownership, and the owner's name, address and telephone number. We will have some member of the Board convey our most humble apologies.

I am not the policy maker in our Group. There is a Board, composed of 8 others, all well advanced adults, all professionals, two attorneys. I am delegated as spokesman, (probably because I work harder, longer, than anyone else, being somewhat stupid), but I must respond to the wishes of the majority of the Board. Our policies are decided by majority vote of the Board.

We receive our programs from members, from our contest (prizes awarded monthly) from estates (attorneys), donations, trades, outright purchases, distressed dealers, material consigned for sale. A few are new, most are used commercial programs, some "home-brewed". If at any time you have a problem with anything we have offered for sale, please feel free to write, we assure you we will investigate the matter. Be specific! Don't guess.

There is not time for us to peruse, edit, whatever all the material we get. For example, we received over 500 disks in the last few days, some with as many as 31 games, programs, utilities. Surely you can see what a staggering task this would be.

We have recently found games, programs, utilities submitted by some members to be of questionable ownership. This is understandable in some cases, for with some it is virtually impossible to tell. Many have been abandoned by their originators. Many bear a protected label, but have fallen into the Public Domain. Some people hang a "copyright" tag on their product, when it is not copyrighted, hoping to scare people away. This is dangerous in the reverse, for if someone is accused of taking such a program, he or she can sue the socks off the accuser. In general, the courts take a rather forgiving view of the person making an error in judgement on matters such as these, and a dim view of the person who copies in wholesale quantities.

If our policies offend you, we are truly sorry, but our policies are dictated by our experiences. We have often demonstrated that we will do more for our membership than they will do for us.

---

On another tack, we were saddened to receive the "Final Copy" of the K.A.U.G. newsletter, in which it was stated that the newsletter and the group was being terminated for lack of member support. We were truly sorry to read this, and we were in the process of composing a letter, inquiring whether there might be any way in which we could help. Then the letter which caused the above reply came.

You can EARN a year extension of your present membership by getting four others to join. Just send in their applications, showing Name-Address-Zip on one of our Order Forms. Include membership fees. When we receive them we will send you an acknowledgement, and a notice that a year has been added to your membership and subscription.

REMEMBER! We now support AMSTRAD and IBM Compatibles as well as ADAM!

!!

Very soon it will be necessary for us to remove the software listings from the newsletter, and place them in a separate catalog. The sheer numbers are the cause. In the last few days, we added 500 more disks, each containing up to 31 different programs, games, utilities, etc.. We will upgrade the catalog periodically, and will charge a small fee. It will be available on disk, or on ddp. This seems to be the best way of handling it, unless you have a better idea?

# CONTEST CONTEST CONTEST CONTEST

The ADAMLAND News is sponsoring a competition in the following categories:

GRAPHICS	UTILITIES
GAMES	ARTICLES
PROGRAMS	HELPFUL HINTS

You may submit entries for these or other categories, as you wish.

A WINNER will be published each month, an Honorable Mention when space permits.

FIRST PRIZE: EACH MONTH, a LADIES or MANS genuine Turquoise and solid Sterling Silver ring. Hand-crafted, finest quality.

HONORABLE MENTION: Awarded each month, One year subscription to "TAN"

GRAND PRIZE: A secret, unannounced Grand Prize will be awarded for the most outstanding entry. Winner can choose from Five Grand Prizes!

WHO MAY ENTER: Any member, except those actively involved in publishing the ADAMLAND News, and their direct family members.

RULES: Enter as many times, and in as many categories as you wish. All entries become the property of ADAMLAND. Entries will be judged by the GROUP STAFF. In the case of ties, duplicate prizes will be awarded. Winners will be notified by mail, and in the newsletter.

ALL ENTRIES must be written on standard 8 1/2 by 11 inch paper, and furnished on data pack or disk. (drawings must be on same size paper), and must be error free. A statement is required, describing the submission in detail, stating that the material has not been previously offered for publication, has not appeared in print, and that the person submitting has the right to offer it. If any submission has commercial possibilities, and ADAMLAND produces it, a royalty will be paid to the submitter, in addition to any award.

THESE RULES ARE IMPORTANT! ANY ENTRIES RECEIVED WHICH DO NOT COMPLY WITH THE RULES WILL BE ELIMINATED FROM ANY POTENTIAL WINNER LIST!

CONTEST IS ONGOING thru JAN 1st 1987

ADAMLAND RESERVES THE RIGHT TO EXTEND THE CONTEST, OR SHORTEN IT'S DURATION

This contest and notice null and void where prohibited by law.

Some months there may be no clear-cut winner, and these entries may be reconsidered later, and if a winner is found, it will be published.

\*\*\*\*\* SOFTWARE FOR ADAM \*\*\*\*\*

Due to a recent series of arrangements, we are able to offer many programs, some not previously available. All this software is on disk. If it is shown as Volume 1, or Volume A, for example, all programs, games, utilities listed under that heading will be on that disk. If it is listed by name only, such as "Dragons Lair" only that program will be on that disk. We cannot split the disks up (separate programs, etc.), you must take them as we get them. First come, first served!

PLEASE NOTE THE NEW PRICES ON SOME DISKS!!! Prices on this series, \$9.95 per disk.

CP/M 2.2, THE ORIGINAL, by DIGITAL RESEARCH, THE TOPS, new, in bookcase type box, containing the large looseleaf complete version of this operating system (O/S) the whole nine yards, capable of making ADAM operate like many minicomputers and some mainframes. Many more usable commands, capable of much more work and versatility than the original ADAM version. Separate command folder, to keep by ADAM when you are working. Clear vinyl pocketed disk holders in the notebook rings. The original disk furnished with this system is incompatible with ADAM. The full CP/M 2.2 was NEVER released with an ADAM compatible disk or data pack. This manual is immediately usable with the ADAM CP/M 2.2 digital data pack, or ADAM disk, and adds considerably to the usefulness of your ADAM. For complete versatility, we are in the process of transporting the full CP/M 2.2 to an ADAM compatible format, which is by no means a quick, easy job. It must be as error free as the original. We expect to have the disks ready in a reasonably short time, and they will be furnished to the persons purchasing the manuals at the following price, free of charge. CP/M 2.2, the COMPLETE system, while they last, \$54.50. The original price on these was nearly \$200.00, and NOT in ADAM format! You will never see a bargain like this again!

## LATEST SOFTWARE NEWS ! ! !

All listed software is now available on DIGITAL DATA PACK or DISK!

For the many of you ADAM users out there who do not have disk drives, or who just like to use your digital data drives, we are now have most listed programs available both on data pack AND disk.

IF YOU WANT YOUR PROGRAMS ON DATA PACK--Simply use the same VOLUME NAME, number or alphabetical title, followed by "DDP", and add \$4.00 to the cost of each volume.

For example: If you want VOL. 2, add "DDP", so it reads "VOL. 2, DDP"

If you want VOL. B, add "DDP", so it reads "VOL. B, DDP"

IF you want ZORK I, add "DDP", so it reads "ZORK I, DDP"

Remember, for DDP versions, add "DDP" behind the name of the volume, and add four (4) pictures of George, in legal tender, to the price of EACH VOLUME.

MAKE CERTAIN OF WHAT YOU ORDER, DO NOT MAKE MISTAKES! SOFTWARE IS NOT RETURNABLE FOR REFUND OR EXCHANGE !!!! IF YOU MAKE A MISTAKE, YOU OWN IT!

## THE ORIGINS OF OUR DISK & TAPE SOFTWARE

SOME OF OUR PROGRAMS HAVE BEEN GIFTS TO THE GROUP, SOME OBTAINED BY TRADE OR PURCHASE FROM VARIOUS USER GROUPS, COMMERCIAL SOURCES AND INDIVIDUALS, SOME ARE THE RESULT OF OUR SOFTWARE CONTEST. WE ALSO PURCHASE FROM COMPANIES GOING OUT OF BUSINESS, ESTATES AND AUCTIONS, MATERIAL CONSIGNED TO US FOR SALE, AND FROM PEOPLE GIVING UP THEIR ADAM COMPUTERS.

SOME SOFTWARE HAS BEEN TRANSPORTED FROM THE ORIGINAL NON-ADAM TO ADAM FORMAT.

THE MAJORITY OF THIS SOFTWARE IS NOT, AND WILL NOT BE CHECKED BY US, DUE TO TIME LIMITATIONS. IT IS SOLD AT SUCH A PRICE THAT IF AN OCCASIONAL SELECTION DOES NOT RUN, THE BALANCE OF WHAT YOU GET WILL MORE THAN OFFSET IT. If a program, game or utility ON A SINGLE PROGRAM DISK or DDP does not run, it may be returned for EXACT REPLACEMENT. SEE OTHER INFORMATION ON SOFTWARE POLICY.

BE CERTAIN TO READ THE DISK-DDP "RUN" INFORMATION SHEET FURNISHED WITH EACH ORDER! THIS EXPLAINS HOW TO RUN THE SOFTWARE, also why your particular computer may refuse to run, complete or ignore some programs. Some require BASIC, some CP/M, some LOGO, some EXTENDED MEMORY, SOME OTHER LANGUAGES. SOME NEWER PROGRAMS WILL NOT RUN CORRECTLY ON OLDER VERSIONS OF ADAM. Remember, we have no way of knowing what you have, or do not have. DO NOT EXPECT ALL SOFTWARE TO RUN ON YOUR COMPUTER UNLESS YOU HAVE ALL THE REQUIREMENTS! Requirements vary, from disk to disk, or ddp to ddp, also sometimes within THE SAME PACK OR DISK! YOU GET THEM AS WE GET THEM.

T - SHIRT DECALS

Specially designed for the ADAM Computer and the ADAM Computer buff.

This decal is 8 by 11 inches, buff with black trim and displays an ADAM keyboard, two controllers, supported by an ADAM console, two disk drives with a printer on top. Paper in the printer has an important message, "I GOT ARTIFICIAL INTELLIGENCE".

The decals can be applied to t-shirts of your choice at most any t-shirt shop, or can be applied by you, your Lady, or the little old lady next door. Dont be picky about who puts them on, they look great!

PRICE? Only a finif, Five Bucks, fim marks, BUT BE SURE TO SEND THE BREAD IN U.S. DOLLARS or the equivalent!

They may be obtained from:

John F. Busby II  
6634 SW 41st ST  
Davie, FL 33314

John is a clever young man, and has filled another gap in the needs for ADAM with his keyboard overlays. Many programs for ADAM are available and if you switch from one to the other, trying to remember what the keys perform, from one time to another, is extremely difficult.

You usually wind up with a manual in one hand, the other hand steadying it on your knee, the other hand getting needed materials and the other two pounding the keyboard. (See what I mean, not enough hands!) These keyboard overlays are made in sixteen different formats:

- |                        |                           |
|------------------------|---------------------------|
| 1. AUTO-AID            | 9. DESK SET [B]           |
| 2. ADAMLINK            | 10. DESK SET [M]          |
| 3. ADAM WORD PROCESSOR | 11. DESK SET [F]          |
| 4. SMARTTYPE W/P       | 12. SMARTFILER            |
| 5. VIDEOTUNES          | 13. RECIPE FILER          |
| 6. SMARTSPELLER        | 14. SMART LETTERS & FORMS |
| 7. FAST-FILER          | 15. FINANCE/LOANS         |
| 8. DATA-CALC           | 16. PAINTMASTER           |

These jewels can be had for only a buck and a quarter apiece \$1.25 or you can steal all 16 for only eleven bucks! That \$11.00 will be some of the best money you ever spent, if you are a user of any of the above programs, and who isn't? They will save you a lot of time shuffling manuals, making trips to your psychiatrist, which cuts down on bread and computer time.

Once again, Checks are O.K., if you live in the 50, if not send the equivalent in U.S. dollars.

NEW PRODUCTS FOR UPGRADING THE ADAM COMPUTER

THE SUPERSWITCH: Pushbutton select from any combination, such as two computers and a VCR, to one monitor or TV. ADAM cable goes to switch, monitor cable supplied. Usable with more than one computer, work on one while the other is printing, or watch a "7" rated movie from the VCR, all without changing cables! SS-3, \$21.95 + \$3.50 HIS, CONUS.

ARE-2 RESOLUTION ENHANCER: Works with Stand-Alone and Expansion Module. Improves readability of text, graphics & colors. Removes blurs, smears, ghosts, etc.. No internal connections. Includes Gold End cable. #ARE-2 \$79.95, +\$10.00, HIS.

DS-QUAD DENSITY "SUPER-DISK" DRIVES FOR ADAM: 800K per disk, 1.6 MB total. TWO drives in low, slimline cabinet, three surge protected outlets on rear for computer, etc.. Front mounted switch controls everything. Self contained power supply, plus documentation & software. Supports CP/M formats, ADAM DOS, another DOS can be added later. #DD-1.6-1, \$599.95 + \$15.00 HIS, CONUS

DESK MONITOR CABLE: Special "GOLD END" desk cable for ADAM, with gold plated ends for low loss, perfect connections. Stops clutter, helps keep picture clean. 3 ft, \$6.95 + \$2.50 HIS, CONUS. 6 ft, \$9.95 + \$3.50, HIS, CONUS

CLOCK-CALENDAR-DATE-IMPRINTER (temporarily discontinued, because of lack of member response. Everyone "SAID" they wanted it, we made it, then they didn't buy it!) If interested, WRITE!

ADAM RAM 64: ADAM compatible 64K Mem upgrade, installs in slot #3. Extends storage in SmartWRITER, adds to SmartBASIC, allows multitasking in ADAMCALC (printing while working). Very valuable for CP/M, indispensable for lengthy programs, speeds up ADAM. We think ours is best on the market! #AR-64, \$69.95 + \$5.00 HIS, CONUS

ADAM EXTERNAL POWER SUPPLY: Replaces ADAM's, which is contained in the printer, thus allowing the use of a different printer. Simple connection. #AEPB, \$69.95, + \$10.00 HIS, CONUS

BIG MEMORY: New 2 + MEGABYTE memory upgrade for ADAM! Supplied with 256K of 41256 C type chips, user upgradable to 2 + Meg. On the same card with INTERFACE CONNECTION FOR HARD DISK! With documentation, installation software, etc., #BM-2 Meg, \$399.95, + \$7.50 HIS, CONUS.

CABINET, POWER SUPPLY, EMI FILTER, etc., for all the ADAM board upgrades! Complete with power cable. Power supply on slide-in/out card! MULTI-FUNCTION EXPANSION CABINET, #MFEC, \$119.95, + \$15.00, HIS CONUS

LIGHT PEN FOR ADAM! Paint directly on screen, do graphics, logos, erase, select from menu with it, use as free-hand cursor, do design work, (CAD) make cartoons, make banners, signs, figures, etc. With interface, software, instructions. THREE MODELS! Economy, Master & Professional. CORDLESS! #E-1, \$89.95. #M-1, \$169.95. #PC-1, \$259.95. All + \$5.00 HIS CONUS

NUMERIC KEYPADS FOR ADAM! For you heavy number users. Keypads adapted to ADAM, sit at the right side of ADAM keyboard. Convenient! We must install this for you! #NKP \$49.95 + \$7.50, HIS CONUS

VOICE RECOGNITION-RESPONDENT for ADAM! Talk to ADAM, as well as have him talk back! Find out all about the APPLE, EVE and the Serpent!. WATCH NEWSLETTER! Should be ready sometime fall, or early winter.

NEWWORD WORD PROCESSOR FOR ADAM! This will solve the deadly "ADAM BUMP" and the other shortcomings of ADAM's word processor. It is ALL HARDWARE, and once installed on the board, will be the "default program" coming up at "power-up". Extremely simple commands, just about as flawless as any program available, anywhere. Also ready this fall or early winter.

## MORE NEW PRODUCTS

ADAM PRINTER BUFFER: THE FINEST AVAILABLE! Our latest printer buffer lets you dump up to 42 pages of text or graphics into the buffer, freeing the computer to do other work, while the printer does "it's thing". Panel indicators show the amount of information in the buffer, the amount remaining as it is used. Has a BYPASS feature, allowing bypassing the buffer temporarily, and printing something brand new from the computer, then returning to the information in the buffer. Also has a COPY feature, allowing direct selection of the number of copies to be made. A READY LED and a PRINTER ERROR LED, which will show if the printer is out of paper, "hung up" or not in the "ON" mode, or awaiting further command. This model can be used with either series or parallel printers, NOT JUST ADAM! Can be upgraded to 256K, or as high as 512K, by us, at a later date. The upgrading is not required for some computers. Horizontal model currently being produced, 7 1/2 inches wide, 2 3/4 inches high, 4 1/2 inches deep. You may need series or parallel interface, and cables. We must know what computer you intend to use, as well as the printer type and model. The interfaces and cables are optional. Color & styling matches ADAM, IBM and many other computers. #APB-2-64H, \$179.95, + \$10.00, HIS CONUS

HOW ABOUT A "LAP TOP" ADAM? We can give you this effect with a Looooooooooooo cable, from the keyboard to the memory console. Just tell us how long you want it. Think how convenient this can be! Sit in your easy chair, or stretch out on the floor, or for those of you who may want to, or have no other choice, work from your bed. NOW you do not need to be tied to ADAM by such a short umbilical cord.

ADAM-IBM COMBINATION? You bet!! Now your ADAM can use IBM programs, with all the windowing, colors and multitasking abilities that combining the two systems will allow. You lose none of the capabilities of ADAM, gain a great deal from the ability to run MS-DOS. Each system can be run independently of the other if you prefer, since ADAM can respond to its own commands, and respond to MS-DOS commands as well! ALL your drives are immediately converted to respond to either ADAM commands or IBM commands!. Our true 16 bit (NOT 8/16) system is currently available, and operates at a true speed of 6 Megahertz. Our combination results in a machine which is FASTER than a TURBO-XT, and as fast as a GOOD AT! You can use CP/M2.2, CP/M 3, (CP/M +) CP/M 80, or CP/M 86, as well as the standard language, and many many others. 100% Text compatible with IBM, will run many IBM programs, except those which are hardware dependent. These will require either software patches, or hardware additions. Size: 15 inches Wide, 18 1/2 in long, 8 in high. Price, "AI-1, \$599.95, + \$15.00, HIS CONUS, comes with four manuals.  
(SEE MULTIFUNCTION EXPANSION CABINET, below)

(THE ABOVE CONVERSION UNIT IS NOT LIMITED TO BEING USED WITH ADAM! It can be interfaced with almost ANY computer which uses the Z-80 family of chip as the CPU. If you are interested in using it with another computer, WRITE, and we will tell you about it. Most are extremely simple to interface.)

MULTIFUNCTION EXPANSION CABINET: Our first shipment of these fantastic cabinets has arrived. Listen to these features:

Color: IBM Beige.....Neoprene feet.....Ventilated front panel. Fully Fan cooled with ROTRON "WHISPER" fan....Heavy duty IBM style power cord.....Cutout for system reset switch....Heavy duty front mounted Rocker Power switch, with panel indicators.... Front panel cutout, can be covered or used as desired.....Power supply on a slide-in edge connector card, heavy duty, supplies +5 v-5 Amps, -5 v-.1 Amp, +12 v-0.45 A and +24 v-2 Amps. Plenty of power for all the expansion boards we have now or planned. Plenty of room too.....Best ENI line filtering setup you are ever likely to see.....Flip two locking levers and power supply slides out (couldn't be easier). This is a truly professional piece, in looks, performance and adaptability. Ideal for the person not dead sure what he/she will be using in the future. The beautiful box is here, what & how you put in it is up to you.

#MFEC-1, \$119.95, + \$15.00 HIS, CONUS

Cabinet LESS POWER SUPPLY #MFEC-1-LPS, \$69.95, + \$15.00 HIS CONUS

POWER SUPPLY ONLY #MFEC-PS, \$64.95, + \$7.50 CONUS

(Makes an excellent power supply for ADAM, in case yours fails, or can be used for many other projects. We can furnish easy conversion information for it to deliver other voltages) This is the finest power supply of its type we have ever seen.

All the above come with detailed documentation, including both pictorial and schematic diagrams, repair info, if later needed, parts lists, where obtainable, crossover indices, etc. DO NOT DELAY ON THESE ITEMS! WE DO NOT KNOW IF WE WILL BE ABLE TO GET MORE! Comparable cost nearly \$600.00!

Recharger included!!

Built in Text Editor.....Separate function keys, requires

NO PROGRAMMING!.....Straightforward Language, NO codes to learn....

COMMAND KEYS.....Nearly two dozen separate files of memory.

This is the neatest, most useful little unit we have seen. If you can't find a use for this tool, you must have games as your only interest! Light colored case, with dark keys. I fell in love with this little rascal the first time I saw it.

Price? You have seen true portables at all kinds of prices, but NEVER anything like this! NOT \$900, not \$700, not \$500, not \$399, not \$299, NOT \$199, but an amazing \$129.95!!!!!! Of course we have to have some HIS, make it \$10.00. What did you say? Of course! These are BRAND NEW, bought from a distressed dealer, but we will give an unconditional 90 day warranty on them, for both parts and labor. Sorry we do not have pictures, but if it isn't like I say, return for a full refund!

WE HAVE LESS THAN 30 OF THESE AVAILABLE, SO IF YOU "SNOOZE, YOU LOSE" or in more precise English, If you delay, you had best pray. THE 30 SOLD LIKE MAD!! NOW HAVE 45, YES, FORTY-FIVE MORE AVAILABLE!

Phone couplers are available for the above, (didn't come with them) from us at \$19.95, no HIS if you order WITH the Briefcase Portable, \$2.50 HIS without.

Oh, by the way, it has a nice keyboard, with better keys than most microcomputers.

# SERVICE ADAM-AMSTRAD-IBM-COMPATIBLE

We offer quick, careful expert service on all the above, and on any device which can be used with them. Ship the defective unit to us, WITHOUT DISASSEMBLING ANYTHING! Of course it is all right to unplug drives, modems, or any other peripherals, then ship the defective unit to us, with the indicated deposit, INSURED, by UPS or MAIL. Pack with original packing, or at least two inches of foam, all around the device(s). NEVER, NEVER SHIP BY FREIGHT, unless you live outside the Continental United States (CONUS).

We will check and repair, advising you of price, you remit, if necessary, and we return. Very simple. Absolutely no estimates, because they take almost as much time as the actual repair. Deposits must be by Money Order or Certified Check.

We also make many upgrade modifications, on all three makes. Let us know what you want, or write for what we can do. Such mods as faster memory chips, faster microprocessors and support components, latest motherboard revisions, etc., are done constantly. If you are bothered by RF interference, we can lessen it or stop it. Unless your unit has been dropped off the tailgate of a pickup, run over by a semi or lorry, there is every reason to believe we can repair it, and at a reasonable price. Usual turn-around times on repairs are very quick. We know how difficult it is to survive without your computer!!

NOTICE!!!The above deposits are NON-RETURNABLE, NON-REFUNDABLE, and are intended as payment for our handling, evaluation time, and, sometimes, the full repair. If repaired, the deposit is credited to the repair, if not it pays for our time. ANY SURPLUS IS ALWAYS REFUNDED!

## WHAT IS ADAM?

According to some beliefs, ADAM was the first man, placed on earth by a caring God. To others, ADAM is a somewhat complex, highly useful electronic tool, placed on earth by man.

At ADAM's Nativity, he was designed to be an expandable tool, to keep pace with the expanding needs of man. Generally speaking, if he will not perform the tasks you want done, YOU are at fault! You simply have not furnished him with the proper nourishment. This "proper" nourishment occurs in at least three forms. Some in what is loosely termed, a "data pack", some in the form of a large flat wafer, and some which must be administered to ADAM by finger feeding. ADAM also responds to electronic stimulation by means of telephone connections.

Properly cared for, properly fed, ADAM will respond by performing a great multitude of tasks, many of which would be either impossible, very time consuming or financially unrewarding for you to do alone.

He is also an admirable companion, for male and female adults, as well as children, because of his innate ability to educate and entertain, as well as to work.

Yet, without programs, ADAM is like any other computer. He will merely sit there, looking for an opportunity to expire, from natural or unnatural causes.

### WHAT DOES ALL THE FOREGOING MEAN? TO WHAT DOES IT LEAD?

It means, very simply, that ADAM himself must be supplied the tools with which to work. The quality of these tools affects the quality of work performed.

In our listings of software and hardware, you will find food and tools for ADAM which will allow him to perform to the ability of his constitution, and even that can be altered, to your heart's desire.

Try, experiment, ply ADAM with questions, while supplying him with the ability to furnish the correct answers.

With the very wide selections of software continually being added to our library, there is absolutely no reason for ADAM to suffer poor nutrition.

Treat him well, and he will respond with alacrity, and show his gratefulness, as should any good servant.

Second name for this column, "Stop the alibis folks, there is NO reason why ADAM cannot do, or be made to do, whatever!"

## ORDERING INSTRUCTIONS

XX  
PLEASE READ CAREFULLY BEFORE ORDERING !!!

MONEY ORDERS, CERTIFIED CHECKS OR CASH ONLY, FOR MERCHANDISE. Check O.K for subscriptions. ALL PRICES U.S. FUNDS! NO CREDIT CARDS. INCLUDE ENOUGH FOR HIS, (HANDLING, INSURANCE, SHIPPING) on every order, NO MATTER HOW SMALL! WE SHIP UPS in the U.S.! Rarely by mail.

DOUBLE THE HIS FOR HAWAII, ALASKA, PUERTO RICO, CANADA, APO'S, FPO'S, etc. OUR P.O. requires special handling for these. UPS does not serve all of Canada! If order must go by air or truck, expect it to cost more!

TRIPLE THE HIS FOR OTHER COUNTRIES! (special P.O. regulations must be met)

DO NOT ALLOW YOUR ORDER TO BE HELD UP BECAUSE OF INSUFFICIENT HIS! WE RETURN SURPLUS HIS TO YOU, IF YOU SEND TOO MUCH!

PRINT, so it can be READ, your NAME, ADDRESS & ITEM # or NAME ORDERED! INCLUDE 44 cents postage for information requests from the US, or International Reply Coupons for anything requiring an answer, or we may not answer the letter! Example, it costs \$1.56 US, for a 1 page, AIR MAIL letter to the UK.

ALLOW FOUR TO SIX WEEKS FOR SHIPPING, on the average. Many items shipped same day, some much slower. DO NOT WRITE ABOUT AN ORDER BEFORE SIX WEEKS!. IT JUST TAKES UP MORE TIME, NEEDLESSLY. Certain new production items may be delayed, or items requiring us to reorder cause delays. DO NOT ORDER ITEMS NOT ON OUR LISTS! Write in and ASK if we have or can get them. (Include postage, DO NOT SEND ENVELOPES, THEY SELDOM ARE LARGE ENOUGH. WE FURNISH THEM.)

MAIL YOUR QUESTIONS & ORDERS! OUR BUSINESS IS "MAIL ORDER" not "PHONE ORDER"! WE DO NOT ACCEPT OR RETURN TELEPHONE CALLS, EVEN IF ASKED TO CALL COLLECT!

ADAM, in some respects is now a dead issue. Production lines, or warehouses from which to order parts, peripherals and hardware, programs, games, utilities NO LONGER EXIST! This makes ordering and supplying very difficult. We now have to order on a when is, where is, as is, how much it is, deliver when possible basis. IF YOU ARE NOT WILLING TO BEAR WITH US UNDER THESE TRYING CONDITIONS, WE SUGGEST YOU SWITCH TO AMSTRAD OR IBM!

IF YOU IGNORE OUR POLICY OF NO PERSONAL OR COMPANY CHECKS FOR MERCHANDISE, we shall ignore your order.

Thank you for your attention to the above, and rest assured, we shall do everything possible, within common sense limitations, to please you.

Items on our lists are in stock when the lists are made up, or expected in by the time an order can arrive from you. We like delays even less than you do.

WE SELL ONLY TO MEMBERS!

WE VALUE OUR MEMBERS!
